

Keep it looking new.

Let it settle.

Follow your installer's curing and first-wash instructions.

Wash gently.

Use a soft mitt and film-safe shampoo. Keep pressure jets away from edges.

Act early.

Remove bird droppings and insect residue promptly. Ask your installer about stubborn marks.

Your paint, in its best light. Premium clear protection adds a resilient surface while preserving the character of your car.

WHAT IS PPF?

Paint protection film is a flexible layer professionally applied over painted bodywork. It helps shield the finish from stone chips, light scratches and everyday marks.

Ask your installer to recommend coverage and confirm the right finish for your car.
